

August 5, 2008

Dear Nikee,

I want to express again how great our backyard picnic turned out on Sunday. We received so many positive comments about the food. For example, "I never cared for barbeque chicken because it is usually so dry, but this was delicious," "the salsas are so good – especially the mango salsa," "the hummus is so good and tangy," and so on. We especially appreciate your flexibility to adjust some dishes to be more to our taste. If there is anything that can be improved, it was the need for more Gorgonzola cheese in the chopped salad.

The crew worked well together. They were efficient, courteous and helpful. I will be happy to recommend Hel's Kitchen to my friends and to use your services again when the occasion arises.

Thank you again for helping us have a wonderful day.

Sincerely,

Sarah C.
